

Dear **National Health Insurance Administration Co.** (NatHealth),

On behalf of our organization, the Royal Health Awareness Society, **WE WOULD** like to express our earnest appreciation for becoming one of our valuable donors this year. It is because of generous donors such as yourself that our society continues to serve hundreds of schools and thousands of underprivileged school students throughout Jordan.

Your monetary contribution has enabled the following school, **زين الشرف الثانوية المختلطة**, located in **الطفيلة**, to join the Healthy Schools National Accreditation project starting from the academic year 2012/2013. Over a period of three years, and because of your support, the school will be transferred into a healthy school whereby the entire school community will be participating actively in the process, reaching and impacting **500** students (*1st to 12th grade*).

We will keep you posted on an annual basis with regards to the school's progress and major achievements (*Bronze*). Furthermore, we would be delighted if you would **LIKE TO** arrange for a site visit to witness hands on the effect of your kind contribution. Kindly note, that you will be regularly receiving our e-newsletter, which highlights all the major updates pertaining to our activities and initiatives, and invitations to our major award ceremonies.

Individuals such as you, proof that there are many people who are willing to assist in alleviating the burden of diseases plaguing our beloved Jordan. This encourages us to go on and to strive more to empower Jordanians from all walks of life to adopt healthy lifestyles and behaviors.

THANK YOU and hope you will continue supporting our worthy cause.

Yours Truly,
Director General
Enaam Al-Barrishi
